

Letter Opener

The Multo 3078 automatic letter opener will overcome any cutting and opening challenges. It will ensure all mails are opened properly with no paper cuts. Unlike under cutters with two motors, the Multo 3078 features three motors which will provide a smooth maneuver and an ever-lasting machine life.

Let the 3078 letter opening machine help increase the productivity by up to 40% with the reverse flow conveyor. The operator will be able to stand in one place to feed and remove opened envelopes, eliminating walking back and forth. This simple and easy system is constructed with heavyweight metal steel material.

Milling Cutter Technology

Protects the contents from being cut or damaged. Removes up to 1/8" of the envelope edge. The removed material is in the form of tiny chips, which are deposited in the waste bin. Creates a soft, feathered edge opening, which prevents paper cuts and gives easy access to the contents.

Mixed Thickness Separator

This separator design ensures that only one envelope passes through the machine at a time maximizing separation and improving cut quality.

Reverse Flow Conveyor

Allows operator to stand in one place to both feed and remove opened envelopes. This increases the production rate by approximately 40%.

Heavy Duty

Solid metal construction throughout. Made of steel using the highest quality of components. Has two motors for better performance and a longer life.
High degree of operational reliability.

Additional Features:

- Reverse flow conveyor
- On delay/on demand feeding
- Rate counter
- Milling cutter on/off
- Resettable counter
- Batch counter
- Lifetime counter
- Variable speed

Specifications:

Speed: 36,000/hour (#10 envelope)
Load Capacity: Approx. 100 envelopes
Envelope Size: All sizes and types
Envelope Thickness: Up to 1/4"
Depth of Cut: 0 (no cut) up to 1/8"
Receiving Tray Capacity: Approx. 100 envelopes
Stand and Waste Bin: Included
Power: 120VAC - 5.00A or 230VAC - 3.00A
Dimensions: 42" W x 30" D x 47" H
Weight: 260 lbs.
